A mobile app prototype for a sign-in screen. The screen is light blue with a dark blue header bar. The header bar contains a back arrow, the text "Sign in", and a status bar at the top showing "PROTO.IO" and "90%". The main content area has a heading "Sign In Heading" followed by a paragraph of Lorem Ipsum text. Below the text are two white input fields with labels "Email*" and "Password*". A dark blue rounded button with the text "Sign in" is positioned below the input fields. At the bottom, there is a line of text: "By proceeding you also agree to the Terms of Service and Privacy Policy".

Push Workout Help

Bench Press(Barbell): Lie flat on the bench and retract elbows between 45 to 90 degree angle. Breathe in and lower bar to chest

Incline Chest Press(Dumbbell): Lie on incline bench holding dumbbells with shoulder width pronated grip.

Chest Flys(Machine): Slightly bend elbows and squeeze chest to bring the handles together in front of the chest.

Skull Crushers(Bench): Lay down flat on bench with barbell and lower the bar to your forehead by bending your elbows.

Tricep Pulldowns(Cable): Keep your back straight and pull arms down while keeping your elbows locked in a 90 degree position.

Legs Workout Help

Barbell Squats: Place barbell between the traps and upper back, with the hands shoulder width apart. Descend by breaking at the hips and sitting backwards.

Leg Extension: Sit on the machine with pads and back rest adjusted with legs underpads. Use quads to extend your legs as you exhale.

Seated Leg Curl: Sit with back on padded support of machine and place lower leg on lever. Pull lever back by contracting the hamstrings..

Leg Press: Place feet shoulder width apart in a position where knees would not pass feet at the bottom of the movement. Push through heel and midfoot.

Calf Raise: Place legs on platform at a shoulder width foot stance. Press on sled by raising your heels as extending off the sled.

Pull Workout Help

Pull-Ups: Hold the bar with a neutral grip with arms fully extended. Retract the scapula and pull upwards by bringing the chest to the bar. Squeeze the back before lowering slowly to the starting position.

Bicep Curl(Barbell): Hold barbell at shoulder width with an underhand grip and elbows touch the side of the torso. Curl barbell with palm facing forward. Lift the bar towards the shoulder until the bicep is fully contracted.

Cable Rows: Grip attachment with both hands and sit with chest upright and back straight. Pull the handle towards the mid-torso.

Lat Pulldowns: Secure your knees under the knee pads. Grip the machine handles with a pronated grip at around than shoulder width. Pull handles down until it touches the upper chest.

Hammer Curls: Stand with dumbbell in each hand and with elbows touching the side of the torso. Pull forearms and hands until fully contracted.
